LA Fleet Week® 2018 presented by Tom Clancy’s Jack Ryan on Amazon Prime Video will feature a Leadership Series of topic-specific executive engagement sessions held on

**Wednesday, August 29th** and **Thursday, August 30th**.

These free sessions are designed to engage leaders in government, industry, and military on topics of common interest. Each session will be approximately one hour in length and includes networking, a discussion, presentations (as appropriate) and Q&A. Sessions will be followed by a hosted tour aboard a Naval vessel to further connect session participants with their specific topic of interest. These engagement sessions are designed to establish relationships and generate creative ideas to address common challenges or opportunities between the US Sea Services and stakeholders from our regional private sector. Each session will be capped at approximately 125 to 150 attendees, majority of them being influencers in the particular topic area. The presenters and speakers are senior leaders from government, industry, and military.
